

Michigan Department of Treasury
496 (2-04)**Auditing Procedures Report**

Issued under P.A. 2 of 1968, as amended.

Local Government Type <input checked="" type="checkbox"/> City <input type="checkbox"/> Township <input type="checkbox"/> Village <input type="checkbox"/> Other		Local Government Name Pontiac		County Oakland
Audit Date 6/30/03		Opinion Date 12/14/04		Date Accountant Report Submitted to State: 1/22/05

We have audited the financial statements of this local unit of government and rendered an opinion on financial statements prepared in accordance with the Statements of the Governmental Accounting Standards Board (GASB) and the Uniform Reporting Format for Financial Statements for Counties and Local Units of Government in Michigan by the Michigan Department of Treasury.

We affirm that:

1. We have complied with the *Bulletin for the Audits of Local Units of Government in Michigan* as revised.
2. We are certified public accountants registered to practice in Michigan.

We further affirm the following. "Yes" responses have been disclosed in the financial statements, including the notes, or in the report of comments and recommendations

You must check the applicable box for each item below.

- ☐ Yes ☒ No 1. Certain component units/funds/agencies of the local unit are excluded from the financial statements.
- ☒ Yes ☐ No 2. There are accumulated deficits in one or more of this unit's unreserved fund balances/retained earnings (P.A. 275 of 1980).
- ☒ Yes ☐ No 3. There are instances of non-compliance with the Uniform Accounting and Budgeting Act (P.A. 2 of 1968, as amended).
- ☐ Yes ☒ No 4. The local unit has violated the conditions of either an order issued under the Municipal Finance Act or its requirements, or an order issued under the Emergency Municipal Loan Act.
- ☐ Yes ☒ No 5. The local unit holds deposits/investments which do not comply with statutory requirements. (P.A. 20 of 1943, as amended [MCL 129.91], or P.A. 55 of 1982, as amended [MCL 38.1132]).
- ☐ Yes ☒ No 6. The local unit has been delinquent in distributing tax revenues that were collected for another taxing unit.
- ☐ Yes ☒ No 7. The local unit has violated the Constitutional requirement (Article 9, Section 24) to fund current year earned pension benefits (normal costs) in the current year. If the plan is more than 100% funded and the overfunding credits are more than the normal cost requirement, no contributions are due (paid during the year).
- ☐ Yes ☒ No 8. The local unit uses credit cards and has not adopted an applicable policy as required by P.A. 266 of 1995 (MCL 129.241).
- ☐ Yes ☒ No 9. The local unit has not adopted an investment policy as required by P.A. 196 of 1997 (MCL 129.95).

MICHIGAN

MAYOR WILLIE W. PAYNE

DEPARTMENT OF FINANCE

December 17, 2004

To: City of Pontiac Employees, Citizenry, and
The Honorable President and Members of the City Council

Subject: Comprehensive Annual Financial Report (CAFR) for Fiscal 2003

State law requires all general-purpose local governments to publish a complete set of financial statements, presented in conformity with generally-accepted accounting principles (GAAP) and audited in accordance with generally-accepted auditing standards (GAAS) by a firm of licensed certified public accountants. Pursuant to those requirements, effective July 1, 2002, the City of Pontiac adopted the GASB 34 reporting format, and hereby issues the enclosed Comprehensive Annual Financial Report (CAFR) of the City of Pontiac, Michigan, for the fiscal year ended June 30, 2003 which was prepared by the City's Finance Department, in accordance with requirements of Act 2, Public Acts of 1968, the State of Michigan and guidelines recommended by the Government Finance Officers Association of the United States and Canada, and audited by PricewaterhouseCoopers LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that these statements were free of material misstatement.

Responsibility for both the accuracy of the presented data and the completeness and fairness of presentation, including all disclosures, rest with the City. To the best of our knowledge, the enclosed data is accurate in all material respects, and is presented in a manner designed to fairly set forth the financial position and the results of operations of the various funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activity have been included. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Pontiac's financial statements for the fiscal year ended June 30, 2003, are fairly presented in conformity with GAAP. That opinion is presented in the financial section of this report.

City of Pontiac
Letter of Transmittal
June 30, 2003

The CAFR is presented in three sections: introductory, financial, and unaudited statistical. The introductory section includes this transmittal letter, the City's organizational chart and a list of principal officials. The financial section includes a Statement of Net Assets and a Statement of Activities, which provides the reader with the financial position of the City of Pontiac viewed as a single entity. In addition, this section provides a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a Management's Discussion & Analysis (MD&A) which immediately follows the opinion of the independent auditors. The unaudited statistical section includes select financial and demographic information, generally presented on a multi-year basis.

Pontiac Profile

Pontiac's recorded history dates back to 1818 when the area was explored by a group headed by Major Oliver Williams. The Village of Pontiac was organized on February 19, 1819. Incorporated as a City on March 16, 1861, Pontiac became the County Seat of Oakland County on March 28, 1920. The city encompasses an area of 20.09 square miles and is the principal industrial/cultural center for the Oakland County area.

Located approximately 35 miles south of Flint and 16 miles north of Detroit in Michigan's southeast quadrant, four major arteries service the City affording reasonable driving access to all City areas for employment purposes: Telegraph Road North/South, Woodward Avenue North/South, Interstate 75 North/South and M-59 East/West (also known as Huron Street within the Pontiac business district).

Early industries were devoted to the essentials of daily living (flour mills, saw mills, woolen mills, blacksmiths, gunsmiths, foundries, dry goods stores, etc.). In the latter part of the 19th century, Pontiac developed into a major center for the manufacture of carriages and wagons. Evolution into the production of automobiles and trucks occurred as a natural development beginning in the decade ending 1910. Approximately ten corporations produced automobiles in the City during that period with varying degrees of success. In 1909, General Motors Corporation purchased three such manufacturers: Carter Car Company, Oakland Motor Company, and Rapid Motor Company. Subsequently, Pontiac became known as a General Motors' town. Between 1910 and 1972, the population of Pontiac grew by approximately 75,200 people. General Motors continues to be the largest employer and taxpayer within the City of Pontiac. In addition to the automobile and auto-related industries, Pontiac houses other profitable employment opportunities within its boundaries: banking (Bank One, Charter One Bank, Flagstar Bank, National City Bank, TCF Bank), brewery (Anheuser-Busch, Inc.), construction and engineering (Barton Malow, Hubbell, Roth & Clark Inc., Nowak & Fraus), interstate/international movers (Corrigan Moving Systems, Mayflower Transit, United Van Lines), etc.

City of Pontiac
Letter of Transmittal
June 30, 2003

With a total population of 67,506 (revised 2000 Federal Census), of which 61% represent the age 18-64 grouping, Pontiac offers a high quality of life for various lifestyles. The City is home to a municipal golf course encompassing approximately 118 playing acres as well as a clubhouse hosting daily communal events, twenty-nine parks covering an available 331 acres of scenic natural settings, the Phoenix Plaza in downtown Pontiac hosting numerous public events throughout the year, and seven community centers offering year-round recreational and cultural activities for the entire community. Other significant cultural/entertainment venues include establishments catering to diverse ethnic backgrounds such as "Clutch Cargo's" in the downtown area, the "Centerpointe Marriott Parkway Lounge" at the southeast boundary of the City hosting various jazz artists on weekends year-round, and the "Pontiac Silverdome" at the northeast boundary of Pontiac which hosts numerous communal fund-raising, sports and recreational events annually. Major shopping venues include Summit Place Mall, Oakpointe Shopping Center, and the Dixieland Flea Market. Additionally, three major medical facilities are located within the Pontiac city limits: North Oakland Medical Center, Pontiac Osteopathic Medical Center, and St. Joseph Mercy Hospital-Oakland.

Based on the revised 2000 Federal Census statistics, the median age of a Pontiac resident is 36 years old . Approximately 47% of the workforce earn \$31,207 or more annually, 49% of its residents own and occupy a single-family home, or own and occupy a multi-unit dwelling (27%). The median value of housing is \$74,300. The workforce consists of individuals aged 16 or older, with the highest occupational concentration within the Services industry class. The average 2003 property tax rate is \$42.33 per thousand of taxable value, distributed as follows:

City of Pontiac	
Pontiac Schools	56.85 %
Oakland County	20.79 %
Intermediate Schools	11.74 %
Community College	4.90 %
Chapter 20 Drains	3.81 %
	1.91 %

ORGANIZATIONAL STRUCTURE

The Mayor and City Council positions are elected four-year positions. Council Legislative Auditor is a Council-appointed financial position reporting directly to the Council members. All department directors are appointments by the Mayor. The Treasurer and Purchasing Agent positions are appointed by the Finance Director, with the consent of the Mayor, and fall under the supervision of the Finance Director.

City of Pontiac
Letter of Transmittal
June 30, 2003

The City of Pontiac's administration of city services is performed through thirteen departments: City Attorney, City Clerk, Community & Human Services, Community Development, Court Administration, Commercial & Industrial Development, Downtown Development Authority, Finance, Fire, Personnel, Police, and Public Works & Utilities, each of which has an Executive Director appointed by the Mayor; and, Pontiac Silverdome, whose Executive Director is appointed by the Stadium Building Authority.

Four judges have jurisdiction over misdemeanors, civil cases, state law cases, small claims suits, traffic cases and preliminary examination of felony cases through the State of Michigan's 50th District Court, which is located in the City of Pontiac. The position of Court Judge is one which can either be an appointment by the State or a citizen-elected position through the municipality. Court judges may also serve either four-year or six-year terms of office. The position of Chief Judge of the Court, however, is an appointment by the State of Michigan.

Summary of Economic Condition

For fiscal year 2003, the City had a budget of \$272,037,663 for all funds (sixth Amendment adopted 11/02/03), prepared through the Finance Department and approved by the City Council. The Council and the Mayor are responsible for the overall management of City affairs.

Interest in the downtown area continues to escalate. New entertainment sites continue to evolve lending to the current list of galleries, restaurants and apartments. This past summer, Pontiac held its eighth Woodward Dream Cruise, followed by both the Cool Nights and Arts, Beats and Eats Festivals. Each event was tremendously successful attracting more than 1.1 million people to the downtown area. Work has also begun on a \$10-million renovation to the historic Strand Theatre, with an opening planned in 2004.

The City's economic base has grown in recent years, as evidenced by more than a 60% growth in assessed property value over the past five years. General Motors currently has approximately 20,000 employees housed in Pontiac facilities and represents approximately 25% of the City's taxable valuation. GM has made a substantial commitment to the City - the largest example being a partnership between General Motors and Etkin Equities in the development of the 400-acre Pontiac Centerpointe Campus. The campus is anchored by four General Motors facilities averaging 8,000 employees involved in vehicle engineering and lab test activities. In addition, Pontiac is the home of GM Powertrain Global Headquarters & Engineering Center.

While a significant amount of development is auto industry related, economic growth has also been bolstered by other industrial, commercial and residential development. Examples of recent economic activity include the following:

- The completed and fully-operational 600,000 square foot GM Truck Product Center North facility, which added 1,900 jobs to Pontiac. The City continues to welcome non-GM businesses to the campus. Several restaurants, a day-care center, several automotive-related facilities and three hotels also occupy the campus.

City of Pontiac
Letter of Transmittal
June 30, 2003

- Completion and occupancy of Galloway Retail Center – Phase I.
- The on-going Centerpointe Parkway extension at the North Centerpoint Campus.
- Completion of the extension of Telegraph Road, from Caesar Chavez (formerly Oakland Avenue) to Walton Boulevard. Other completed major street reconstruction/resurfacing projects are: Martin Luther King, Jr. Boulevard, South Boulevard, Woodward Avenue (S. Blvd. North to the Woodward Loop), Water Street, Whittemore Street, Williams Street, Bagley Street and Montcalm Street. Widening between Joslyn and Perry Streets and University Drive is proposed in the future. Additional Telegraph Road improvements are proposed for Fall 2003.
- Completion of improvements to the Pontiac Municipal Golf Course, including installation of a weather alert system, expansion of the course irrigation system, construction of comfort stations and implementation of Phase II of the onsite town homes/condominiums construction.
- Construction-in-process at Galloway Office Center of a 1-1/2 story office building, measuring 31,240 square feet.
- Construction startup on the Clinton Valley Project which will be comprised of a 90-acre technology park, and a 116-acre redevelopment with 300 detached homes, 230 townhouses, 100 condominiums, and a 200,000 square foot community center. The residential development is underway and progressing at a steady pace.
- Housing construction projects throughout Pontiac:

Greens Of Crystal Lake	84 Townhouses, Completed & Sold
Fieldstone Village	225 Single-Family Homes, Construction-In-Process
Your Home Inc.	24 Two-Family Dwellings, Awaiting Certificate Of Occupancy 16 Additional Dwellings, Under Construction
Elmhaven Manor	Project cost of \$14 million; Construction to begin Spring/Summer 2003, with estimated completion in 12-14 months 6 Single-Family Units, 138 Senior Units, 132 3-Story Mid-Rise Single-Family Units Galloway Estates 68 Single-Family Homes, Under Construction 22 lots sold with an additional 13 lots held on deposit. (\$18 Million)
University Park	42 Attached Condominiums, 6 Completed, 2 Sold

City of Pontiac
Letter of Transmittal
June 30, 2003

	Condominiums, 6 Under Construction (\$6.3 million)
Birchcrest	56 Single-Family Homes, Under Construction 2003 Development. (\$10.4 million)
Walton Pond	114 Attached Condominiums, 100 Sold, 14 Pending. Closeout anticipated late 2003.
Lighthouse Community	21 Single-Family Homes, 8 Sold, 5 Pending Sales, 8 Under Construction (To be completed late 2003) Development
Stonegate Pointe (Formerly Clinton Valley)	670 Attached/Detached Units, Under Construction.
Habitat For Humanity	18 Single-Family Homes, Completed 7 Single-Family Homes, To be completed by Summer 2004
Venture Homes	17 Single-Family Homes, 7 Completed, 6 Sold, 1 Pending Sale, 10 Under Construction-Summer 2003
Volunteers Of America	50 Units for the Elderly, Under Construction (\$4.5 Million)
Fairview Estates Condominiums	69 Condominiums, Under Construction – Anticipated Completion 2004 (\$11 million)
Fairview Village	50 Detached Condominiums, Under Construction (\$10 million)
Sanford Arms	161 Units Rehabilitated, (Approximate renovation cost \$7 million)
Presbyterian Village	150 Senior Units Rehabilitated, (\$7.5 million)

City of Pontiac
Letter of Transmittal
June 30, 2003

Future Prospects

Site Plan approval has been granted to begin construction of a four-story medical office facility, which is the first phase of a proposed \$150 million development on a 13-acre site on the south side of Great Lakes Crossing Drive (formerly Lake Angelus Road.). A 280-room, 10-story luxury hotel with a 100,000 square foot convention facility and office building above a four-story parking garage are also planned for this site.

A \$1 billion dollar mixed-use development (hotel, offices, retail and residential) is proposed on an eighty-acre site annexed from Bloomfield Township on Telegraph Road, north of Square Lake Road. It is anticipated that development of this site will start in 2004.

The City of Pontiac received an acquisition grant from the Department of Natural Resources to purchase railroad property for conversion into a bike path. "Rails to Trails" will consist of 1.7 miles and the bike path will stretch from North Telegraph (at Orchard Lake Road) to Bagley Street.

Other developments anticipated to begin in 2004/2005 are:

Pontiac Silverdome	Redevelopment into a mixed-use site
Galloway Retail Center Development	Phase 2 – 32,000 square foot retail shopping center
Pontiac Oakland Technology	1.5 million square foot high tech office space on 90 acres
Parkside Villas	16 Single-Family Dwellings, Anticipated construction Spring/summer 2004
US Postal Service Distribution Center	680,000 square foot building on Montcalm Street
Presbyterian Village	Phase II, Construction of new residential units

City of Pontiac
Letter of Transmittal
June 30, 2003

Casa Del Ray Apartments	Rehabilitation/remodeling of existing structure, consisting of 24,000 square foot 4-½ story Spanish Eclectic masonry and cast concrete building (with basement). Unit mixes for the facility will remain as follows: (9) studio apartments with one bath, (23) one-bedroom, one-bath units, (16) two- bedroom, one-bath units, and (1) three-bedroom, two-bath unit. The lower level will be remodeled to accommodate the following uses: laundry, tenant storage, and leasing/management office. Parking will be provided on the existing parking lot at the rear of the building. The project when completed will be eligible for Historic Tax Credits. Workplans necessary to obtain approvals by the State Preservation Officer and the National Park Service are included in the work.
Renaissance Townhouse Apartments	Adaptive reuse of existing structure, consisting of 56,000 square feet. 56 two-bedroom, one-bath units with basements. Surface parking on the building's existing parking lot will be provided.
Osmun Street	Rehabilitation of an existing standard vehicle building into loft-style apartments, and construction of new single-family homes

Reporting Entity

This report includes all funds of the primary government (i.e., the City of Pontiac, as legally defined), and it's component units. Component units are legally separate entities for which the primary government is financially accountable. Blended component units, although legally separate entities, are in substance, part of the primary government's operations and are included as part of the primary government. Accordingly, the following blended component units are reported as part of the primary government:

General Building Authority
General Employees' Retirement System
Police and Fire Retirement System

Discretely presented component units are reported in separate columns in the basic financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position, results of operations and cash flows from those of the primary government. Accordingly, the following are reported as discretely presented component units:

City of Pontiac
Letter of Transmittal
June 30, 2003

Economic Development Corporation
Brownfield Redevelopment Authority
Tax Increment Financing Authority
Downtown Development Authority
Pontiac Hospital Finance Authority
Pontiac Silverdome

The City provides a full range of municipal services, including police and fire protection, parks, recreation, public works (highways, streets and waste collection), culture, public improvements, planning and zoning, economic development, and water and sewer services. Two other governmental jurisdictions overlap the City's boundaries: Oakland County and the Pontiac School District. These two separate governments are not included in the City's financial report since they are separate entities. Additionally, the Pontiac Housing Commission provides services to the citizens of Pontiac but is a separate entity and therefore, is excluded from the enclosed financial statements.

Internal Controls

Management of the City is responsible for establishing and maintaining adequate internal controls. Internal controls provide reasonable, but not absolute, assurance with regard to the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived. The evaluation of costs and benefits requires estimates and judgments by management.

We believe that the City's system of internal control adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions.

City of Pontiac
Letter of Transmittal
June 30, 2003

Budgetary Control and Accounting System

The City of Pontiac operates under an annual budget in order to react quickly to major budgetary fluctuations. Under the Uniform Budget Act for Local Units of Government (PA 621 of 1978) the budget serves as the foundation for the City's financial planning and control. The City of Pontiac's fiscal year begins July 1st and ends June 30th. All departments and agencies of the City are required to submit appropriation requests and revenue estimates to the Budget Cost Administrator of the Finance Department five months prior to the ensuing fiscal year. This information is then used to develop a recommended financial plan for the upcoming fiscal year and is submitted to the City Council no later than June 1st for review. The Council, in turn, schedules hearings with the Finance Director, Budget Cost Administrator, Budget Analyst and each department for an in-depth analysis of the appropriations requested before making the decision to approve the budget on or before June 30th, the close of the fiscal year. Additionally, mid-year budget reviews are held between these same parties to determine whether there is a need for revisions to the plan originally adopted. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget was adopted.

The budget appropriations are prepared by department, fund, activity (function), and account number. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the major activity or departmental level for the General Fund and at the fund level for the Special Revenue, Debt Service and Capital Project Funds. Control accounts are established at the fund level for personnel-related expenditures, supplies & services expenditures, capital outlay expenditures, miscellaneous expenditures, and transfers. Departments may exceed line item appropriations within each control account provided the total for the control account is not exceeded. A transfer of \$10,000 or more between control accounts requires a budget amendment and approval by vote of the City Council.

Any single professional services expenditure in excess of \$20,000 must also be approved by vote of the City Council. Budgets are adopted for all governmental funds of the City. Subsequent to adoption of the fiscal plan by City Council, budgetary data is integrated into the accounting system to ensure proper monitoring.

The City's accounting policies comply, in all material respects, with generally accepted accounting principles.

Recent Technological Advances

The City has completed the full implementation of the Banner integrated software system. The use of this state-of-the-art technology enables the City to centralize purchasing functions, improve data tracking, facilitate on-line approvals, monitor general ledger budget-to-actual balances, and, among many other benefits, conserve financial resources.

City of Pontiac
Letter of Transmittal
June 30, 2003

Cash Management

The City has a cash management program designed to invest temporary available cash in short-term securities, including certificates of deposits, commercial paper repurchase agreements, U.S. Treasury agencies and the Michigan State Treasurer's investment pool which meet the primary objectives for the investment of available funds: safety of principal, sufficient liquidity, and receipt of the highest rate of return. Investment transactions, except those of the Retirement Systems, are administered by the City Treasurer in compliance with the provision of Public Act 20 of 1943, as amended.

The City's investment policy is to minimize credit and market risks while maintaining a competitive yield on its portfolio. Total cash and cash equivalents of \$158,344,314 represent an increase of \$15,895,771 over last year. In order to minimize the risk associated with the uninsured and uncollateralized cash resources, the City Treasurer obtains pertinent data of the prospective financial institution prior to initial deposits and periodically evaluates financial data of all institutions holding City funds thereafter to determine each institution's credit worthiness for future investment. The Treasurer must adhere to the following policy measures in the management of cash and investments:

- on a daily basis, all cash must be deposited in financial institutions within the legal boundaries of the City of Pontiac;
- the investment policy must conform to all federal, state, and local laws;
- the Treasurer must practice strict observance of safety of principal, adequate liquidity, and favorable yield on investments;
- the Treasurer must strive to implement a "zero" balance system of cash flow management with city depositories;
- investments in one financial institution should not be greater than fifty percent of all city-invested monies; and,
- deposits in any one financial institution cannot exceed five percent of total equity.

Deficits in Fund Equity

The fund deficit of \$4,696,543 in the General Fund is the result of a \$2.2 million shortfall in the beginning fund balance as well as a \$1.3 million shortfall in State of Michigan distributions, and a \$1.7 million shortfall in transfers from other funds. A deficit elimination plan has been prepared and submitted to the City Council for review and approval.

The fund deficit of \$1,483,596 within the Transportation Center is due to accumulated depreciation of \$1,850,127. The City is currently in negotiations with the Michigan Department of Transportation to potentially transfer the Center to the State. The City expects to have the deficit forgiven when the land is conveyed back to the State.

City of Pontiac
Letter of Transmittal
June 30, 2003

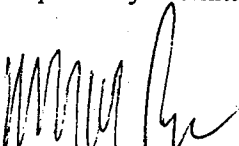

Bond Ratings

In 2003, there were no changes in the City of Pontiac's outstanding bond ratings of BBB+, Baa3 and BBB by Fitch Ratings, Moody's and Standard and Poor's respectfully.

Acknowledgments

This report could not have been prepared without the dedicated efforts of the entire city staff, especially those within the Finance Department. We would like to extend our sincere appreciation to all employees who assisted and contributed to its preparation, particularly the Internal Audit Division. We would also like to thank members of the Pontiac City Council for their cooperation and support when addressing issues confronting the City and the management of its finances.

Respectfully submitted,

Willie W. Payne
Mayor

J. Edward Hannan
Finance Director

Report of Independent Auditors

To the Honorable Mayor and Members of City Council
City of Pontiac, Michigan

In our opinion, based on our audit and the report of other auditors, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Pontiac, Michigan (the "City") which collectively comprise the City's basic financial statements as listed in the table of contents, present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City's at June 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America. We also have audited the financial statements of the City's nonmajor governmental, nonmajor enterprise, and fiduciary funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2003, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the General City Employees' Retirement System, Police and Fire Retirement System or the General City Employees' and Police and Fire Retiree Prefunded Group Health and Insurance Trust (the "Health Trusts"), which statements reflect total assets of \$646,228,551 as of December 31, 2002 and total deletions of \$(41,688,215) and 100% of the net assets held in trust for pension benefits for the year then ended. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinions expressed herein, insofar as it relates to the amounts included for the Retirement Systems and the Health Trusts of the City are based solely on the report of the other auditors. We conducted our audit of these statements in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provides a reasonable basis for our opinions.

As described in Note 1, the City adopted the provisions of the Governmental Accounting Standards Board ("GASB") Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, as amended by GASB Statement No. 37, Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments: Omnibus – an Amendment of GASB Statements No. 21 and No. 34 and GASB Statement No. 38, certain financial statement note disclosures as of July 1, 2002.

In accordance with Government Auditing Standards, we have also issued our report dated December 14, 2004 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The management's discussion and analysis and the budgetary comparison information on pages 13 through 23 and 85 through 87 are not a required part of the basic financial statements but are supplementary information required by accounting principles general accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. These sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

City of Pontiac

Management's Discussion and Analysis

June 30, 2003

This section of The City of Pontiac's annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year that ended on June 30, 2003. Please read it in conjunction with the transmittal letter at the front of this report and the City's financial statements, which follows this section.

Overview of the Financial Statements

The City of Pontiac adopted the Governmental Accounting Standings Board (GASB) statement No. 34 this fiscal year. This annual report consists of four parts-management's discussion and analysis (this section), the basic financial statements, required supplementary information, and an optional section that presents combining statements for non-major governmental funds and internal non-major business funds. The basic financial statements include two kinds of statements that present different views of the City of Pontiac:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about Pontiac's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the City of Pontiac's government, reporting the City's operations in more detail than the government-wide statements.

The governmental funds statements tell how general government services like public safety were financed in the short term as well as what remains for future spending.

Proprietary fund statements offer short and long-term financial information about the activities the government operates like businesses, such as the water and sewer system.

Fiduciary fund statements provide information about the financial relationships-like the retirement plan for the City's employees-in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. In addition to these required elements, we have included a section with combining statements that provide details about our non-major governmental funds and non-major business-type funds, each of which are added together and presented in single columns in the basic financial statements.

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

Figure A-1 summarizes the major features of the City's financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Figure A-1. Major Features of The City of Pontiac's Government-wide and Fund Financial Statements

<i>Type of Statements</i>	Government-wide	Governmental Funds	Fund Statements Proprietary Funds	Fiduciary Funds
<i>Scope</i>	Entire City government (except fiduciary funds) and the City's component units	The activities that are not proprietary or fiduciary, such as police, fire, and parks	Activities the City operates similar to private business: the water and sewer system, and the parking facilities	Instances in which the City is the trustee or agent for someone else's resources, such as the retirement plan for City employees
<i>Required financial statements</i>	* Statement of net assets * Statement of activities	* Balance sheets * Statement of revenues, expenditures & changes in fund balances	* Statement of net assets * Statement of revenues, expenses and changes in fund net assets * Statement of cash flows	* Statement of fiduciary net assets * Statement of changes in fiduciary net assets
<i>Accounting basis and measurements focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter, no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the City's funds do not currently contain capital assets, although they can
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of year: expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

Financial Highlights

- The City's total net assets remained virtually unchanged with a decrease of 1.0 million over the course of this year's operations. Moreover, net assets of our business-type activities changed with an increase of \$1.9 million or nearly 3.1 percent, coupled with a decrease of \$2.9 million or 4.2 percent in the net assets of our governmental activities.
- During the year, the City's expenditures were \$2.9 million more than the \$53 million generated in taxes and other revenues for the general fund.
- The general fund reported a deficit this year of \$4.7 million.
- The resources available for appropriation were \$3.4 million less than budgeted for the general fund. However, we kept expenditures under budget by \$2.2 million with spending limits primarily through delayed hiring, overtime freeze and our staff restructuring efforts.

Government-wide Statements

The government-wide statements report information about the City of Pontiac as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the City of Pontiac's net assets and how they have changed. Net assets – the difference between the City's assets and liabilities – is one way to measure the City's financial health or position.

Over time, increases or decreases in the City's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the City you need to consider additional non-financial factors such as changes in the City's property tax base and the condition of the City's roads.

The government-wide financial statements of the City of Pontiac are divided into three categories:

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

- Governmental activities – Most of the City of Pontiac's basic services are included here, such as the police, fire, public works & utilities, community development and general administration. Property taxes, state and federal grants finance most of these activities.
- Business-type activities – The City of Pontiac charges fees to customers to help it cover the costs of certain services it provides. The City's water and sewer system and parking facilities are included here.
- Component units – The City of Pontiac includes two other entities in its report – the Pontiac Silverdome and the Pontiac Hospital Finance Authority. Although legally separate, these "component units" are important because the City is financially accountable for them.

Fund Financial Statements

The fund financial statements provide more detailed information about the City of Pontiac's most significant funds not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The City Council establishes other funds to control and manage money for particular purposes (like the cable project) or to show that it is properly using certain taxes and grants (like aid from the US Department of Housing and Urban Development).

The City has three fund types:

- Governmental funds – Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide reconciliations between the Governmental Funds Balance Sheet and between the Statement of Revenue, Expenditures, and Changes in Fund Balance to the Statement of Activities that explain the differences between the two.
- Proprietary funds – Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long and short-term financial information.

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

In fact, the City's enterprise funds (one type of proprietary fund) are the same as its business-type activities, but provide more detail and additional information, such as cash flows.

We use internal service funds (the other kind of proprietary fund) to report activities that provide supplies and services for the City's other programs and activities-such as the City's Insurance Fund.

- Fiduciary funds – The City is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other assets that – because of a trust arrangement-can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

Financial Analysis of the City as a Whole

Net Assets

The City of Pontiac combined net assets were \$124.8 million for fiscal year ending 2003 (See Table A-1). In comparison, governmental activities total assets were \$41.4 million greater than business-type activities total assets. However, governmental activities net assets were only \$6 million greater than business-type activities net assets. This is due to the total liabilities of \$55.4 million for governmental activities versus \$20.1 million of business-type activities.

Table A-1
Net Assets

<i>(in millions of dollars)</i>	Governmental Activities 2003	Business- Type Activities 2003	Total 2003
Current and other assets	\$ 67.6	\$ 31.2	\$ 98.8
Capital assets	53.3	48.3	101.6
Total assets	<u>120.9</u>	<u>79.5</u>	<u>200.4</u>
Long-term debt outstanding	25.4	17.8	43.2
Other liabilities	30.0	2.3	32.3
Total liabilities	<u>55.4</u>	<u>20.1</u>	<u>75.5</u>
Net assets	65.5	59.4	124.9
Invested in capital assets net of related debt	6.5	46.3	52.8
Restricted	2.7	7.9	10.6
Unrestricted	56.2	5.2	61.4
Total net assets	<u>\$ 65.4</u>	<u>\$ 59.4</u>	<u>\$ 124.8</u>

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

Net assets of the City of Pontiac's governmental activities are either restricted as to the purposes they can be used for or they are invested in capital assets net of related debt (buildings, roads and bridges). Consequently, unrestricted net assets totaled \$56.2 million at the end of this year, while restricted net assets totaled \$2.7 million. A deficit does not mean that the City of Pontiac does not have resources available to pay its bills next year. Rather, it is the result of having long-term commitments that are greater than currently available resources. Specifically, the City did not include in past annual budgets the full amounts needed to finance future liabilities arising from property and casualty claims and to pay for unused employee vacation and sick days. The City will include these amounts in future years' budgets as they come due. In addition, the unrestricted governmental net assets were adversely affected by tax revenues and State shared revenues that were short of expectation over the past two years.

Although our business-type activities net assets were \$59.4 million, these resources cannot be used to make up for declines in governmental net assets. The City generally can only use these net assets to finance the continuing operations of the water, sewer, and parking operations.

Figure A-2
THE CITY OF PONTIAC SOURCES OF REVENUE
FYE June 30, 2003

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

Charges for services and taxes make up seventy three percent of the City's sources of revenue, and 39 cents of every dollar raised comes from some type of tax (See Figure A-2). Another twenty seven cents comes from State shared revenue, capital lease proceeds and transfers.

Figure A-3
THE CITY OF PONTIAC FUNCTIONAL EXPENSES
FYE June 30, 2003

**City of Pontiac
Management's Discussion and Analysis
June 30, 2003**

Governmental Activities

Revenues for the City of Pontiac's governmental activities including charges for services and general revenue was \$57.5 million.

The City's management took major actions to avoid a larger level of deficit reported this year. One of these actions increased revenues and the second reduced expenses:

- The City of Pontiac sold land on Baldwin Street for \$220,000. This was a one time special item. Although this property has been added back to the tax rolls, the tax revenues it may generate in the future are not expected to be at the same level as the City received this year by selling the land.
- The City imposed a critical needs hiring and overtime freeze (excluding the City's police, fire, and sanitation departments) in mid-year that resulted in a \$400,000 savings in wages. This freeze, plus cost savings from our continuing staff restructuring efforts, held down the increase in expenses.

The total property tax levy increase from \$21.7 million to \$26.4 million in several major commercial and residential developments assisted in avoiding an even larger deficit. More than half of the City's other revenue sources also fell short of final budget estimates. In addition, state shared revenues were lower than expected because of overall state cutbacks.

Table A-2 presents the cost of each of the City's four largest programs – public safety, general government, citizen services and public works as each program's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost shows the financial burden that was placed on the City's taxpayers by each of these functions.

- The cost of all governmental activities this year was \$82.2 million.
- However, the amount that our taxpayers paid for these activities through City taxes was only \$31.1 million.
- Some of the cost was paid by those who directly benefited from the programs \$6.9 million or 8.4 percent.
- By other governments and organizations that subsidized certain programs with grants and contributions of \$16.0 million.

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

Table A-2
Government Activities

(in millions of dollars)

	Total Cost of Services	Net Cost of Services
Public safety	\$ 35.3	\$ 32.2
General government	12.3	9.4
Citizen services	6.6	2.4
Public works	24.0	8.8
Other	1.0	1.0
Interest expense	3.0	3.0
Total	\$ 82.2	\$ 56.8

Business Type Activities

Revenues of the City's business-type activities amounted to \$22.6 million and expenses were \$23.5 million. Factors contributing to these results included:

- A \$1.6 million increase in operating expenses before depreciation and amortization in contractual services within the water and sewer operation. The evaluation of water and sewer lines throughout the City and preparation for corrective action caused a material increase in expenses.
- Continued operating deficits at City parking facilities - \$1.6 million this year versus \$.81 million in 2002. In both years the deficit was attributable primarily to the City-owned garage and parking lots located in downtown Pontiac.
- Both water and sewage activities generated a combined profit of \$1.5 million.

City of Pontiac Management's Discussion and Analysis June 30, 2003

Financial Analysis of the City's Funds

As the City of Pontiac completed the year, its major governmental funds reported a combined fund balance of \$26.5 million. Included in this year's total change in fund balance, however, is a deficit of \$4.7 million in the City's general fund. Furthermore, without the cash from the sale of land and savings from vacant positions, the fund balances would be even lower. The following are the primary reasons for the general funds' deficit mirror those highlighted in the analysis of governmental activities. In addition, these other changes in fund balances should be noted:

- The City spent \$6.0 million this year on economic opportunity and development in the capital projects fund, reducing the beginning fund balance in that capital projects fund by \$22.5 million. This reduction was expected as ongoing projects were initiated and funded prior to July 1, 2002. Although these and other capital expenditures reduce available fund balances, they create new assets for the City in the statement of net assets
- Each year, the State of Michigan provides the City of Pontiac with a portion of the sales tax revenues it collects. This year the City realized a \$1.5 million reduction from \$15.6 million to \$14.1 million.

General Fund Budgetary Highlights

Over the course of the year, the City Council revised the City budget several times. These budget amendments fall into three categories:

- Amendments and supplemental appropriations approved shortly after the beginning of the year to reflect the actual beginning account balances.
- Changes made in the to account for the delayed hiring and overtime freeze, some of the City's staff restructuring efforts, and the sale of an additional parcel of park land.
- Increase in appropriations to prevent budget overruns.

Even with these adjustments, actual expenditures were \$1.2 million below final budget amounts. A significant positive variance (\$.42 million) resulted from a 57 percent reduction of the finance department's technology division workforce due to the staff restructuring and hiring freeze.

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

On the other hand, resources available for appropriation were \$3.4 million below the final budgeted amount. As noted earlier:

- Income tax, state shared revenue and interest earnings were less than expected.
- Reductions in state funding also affected grant resources available for appropriation.

Capital Asset and Debt Administration

Capital Assets

At the end of 2003, the City of Pontiac had \$101.6 million in a broad range of capital assets, including police and fire equipment, buildings, park facilities, roads, bridges, and water and sewer lines. This amount represents a net increase (including additions and deductions) over last year.

Table A-3
Capital Assets

(net of depreciation, in millions)

	Governmental Activities	Business- Type Activities	Total
Land	\$ 23.1	\$ 16.2	\$ 39.3
Buildings	1.6	30.8	32.4
Machinery & equipment	3.3	0.6	3.9
Furniture & fixtures	0.9	0.0	0.9
Vehicles	1.8	0.7	2.5
Paved streets	14.9	0.0	14.9
Construction in progress	7.7	0.0	7.7
	<u>\$ 53.3</u>	<u>\$ 48.3</u>	<u>\$ 101.6</u>

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

This year's major capital asset additional included:

- Major and Local Streets construction projects
- Redevelopment of housing property
- Replacement of older segments of the wastewater collection system

The City of Pontiac's fiscal year 2003 capital outlay budget spent another \$.6 million for capital projects.

Long-term Debt

At year-end the City had \$99.4 million in bonds, compensation, landfill closure, notes and pending litigation. This is an increase of 6.2 percent over last year – as shown in Table A-4. More detailed information is presented in section L of the Comprehensive Annual Financial Report.

Limitations on Debt

The state limits the amount of general obligation debt the City of Pontiac can issue to 10 percent of all assessed real and personal property within the City's corporate limits. Our outstanding debt is significantly below this limit, which is currently \$132 million.

Economic Factors and Next Year's Budgets and Rates

- The City of Pontiac is located in Oakland County. In 1999 the Per Capita Personal income in the County was \$44,146 the highest of all Michigan counties that year. Per Capita Personal income in 2000 was \$45,872.
- Oakland County's population grew 10% between 1990 and 2000, while the City of Pontiac's population decreased 7% between the same period of time.
- Unemployment now stands at 11 percent, the same percent a year ago in the City of Pontiac. This compares unfavorably with the state's rate of 7.0 percent and the national rate of 5.8 percent.

These indicators were taken into account when adopting the general fund budget for fiscal year 2004. Amounts available for appropriation in the general fund budget are \$59.3 million, a decrease of 3.7 percent over the final 2002 budget of \$61.6 million. Property taxes, public service taxes, and grant revenue (deflated by decreased state funding in several of our current programs) are expected to lead this decrease.

Budgeted expenditures are expected to fall nearly 6.5 percent to \$57.5 million. The largest increments are increased wage and contractual cost-of-living adjustments reached with the unions. The City has added no major new programs or initiatives to the 2004 budget.

If these estimates are realized, the City's budgetary general fund balance is expected to stabilize and possibly increase modestly by the close of 2004. More importantly, however, this will have been accomplished without repeating the selling of capital assets or restructuring of long-term debt to alleviate cash flow pressures that occurred this year.

As for the City's business-type activities, we expect that the 2004 results will also improve based on these recent rate decisions:

- The City of Pontiac is in negotiations to reduce the cost of operations within the Sanitation Department by using a vendor to operate the land fill and pick up trash throughout the City of Pontiac.

City of Pontiac
Management's Discussion and Analysis
June 30, 2003

- The City of Pontiac is reviewing proposals for profitable operations of the Silverdome.

Contracting the City's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City of Pontiac Finance Director's Office, 47450 Woodward Ave., Pontiac, Michigan 48342.

City of Pontiac
Notes to Financial Statements
June 30, 2003

1. Summary of Significant Accounting Policies

The City of Pontiac was incorporated on March 15, 1861 and currently operates under a Council- Strong Mayor form of government. Major operations include police and fire protection, parks, library and recreation, public works and general administrative services. In addition, the City owns and operates a water supply and sewage treatment system.

The City financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established in GAAP and used by the City are discussed below.

In June 1999, The GASB issued Statement No. 34, Basic Financial Statements- and Management's Discussion and Analysis- for State and Local Governments. Certain of the significant changes in the Statement include the following:

- A Management Discussion and Analysis (MD&A) section providing an analysis of the City's overall financial position and results of operations.
- Financial statements prepared using full accrual accounting for all the City's activities.
- A change in the fund financial statements to focus on the major funds.

Basic (Government-Wide) and Fund Financial Statements – GASB Statement No. 34

During fiscal year 2003, the City adopted GASB Statement No. 34, *Basic financial statements – and Management's Discussion and Analysis – for State and Local Governments*, as amended by GASB Statement No. 37 and No. 38, and applied those standards on a retroactive basis. GASB Statement No. 34 establishes standards for external financial reporting for state and local governments and requires that resources be classified for accounting and reporting purposes into the following three net asset categories:

- **Invested in capital assets, net of related debt** consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction or improvement of those assets.
- **Restricted net assets** result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors and the like, or imposed by law through constitutional provisions or enabling legislation.

City of Pontiac
Notes to Financial Statements
June 30, 2003

- **Unrestricted net assets** consists of net assets which do not meet the definition of the two preceding categories. Unrestricted net assets often are designated, to indicate that management does not consider them to be available for general operations. Unrestricted net assets often have constraints on resources which are imposed by management, but can be removed or modified.

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. While the previous financial reporting model emphasized fund types (the total of all funds of a particular type), in the new financial reporting model the focus is on either the City as a whole, or major individual funds (within the fund financial statements). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type. In the government-wide Statement of Net Assets, both the governmental and business-type activities columns: (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The government-wide Statement of Activities reflects both the gross and net costs per functional category, which are otherwise being supported by general government revenues (property and certain intergovernmental revenues). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues and grants both operating and capital related. The program revenues must be directly associated with the function otherwise they are reported as general revenue. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net cost (by function or activity) is normally covered by the City's general revenues. Historically, the previous financial reporting model did not summarize or present net cost by function or activity.

The City does not currently employ an indirect cost allocation system. An administrative service fee is charged by the General Fund to the other operating funds, that is eliminated like a reimbursement (reducing the revenue and expenditure in the General Fund), to address General Fund services (finance, personnel, purchasing, legal, technology management, etc.) provided.

This government-wide focus is more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

2. Reporting Entity

These financial statements present the City and its component units. Blended component units represented as part of the primary government are General Building Authority, General Employees' Retirement System and the Police and Fire Retirement System. Discretely presented component units reported in separate columns in the combined financial statements are Pontiac Silverdome, Downtown Development Authority (DDA), Economic Development Corporation (EDC) Tax Increment Financing Authority (TIFA), Brownfield Redevelopment Authority, and Pontiac Hospital Finance Authority.

City of Pontiac
Notes to Financial Statements
June 30, 2003

3. Basic Financial Statements- Government-Wide Statements

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The City's general administrative services, sanitation, special revenues, cemetery endowment and capital projects are classified as governmental activities. The City's water, sewer, parking, golf, cemetery and transportation center are classified as business – type activities.

In the government-wide Statement of Net Assets, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic basis, which recognizes all long term assets and receivables as well as long term debt and obligations. The City's net assets are reported in four parts- invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

The City utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the City's functions and business-type activities. The functions are also supported by general government revenues (property, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (police, public works community and youth services, etc.) or a business-type activity. Operating grants include operating –specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property, intergovernmental revenues, interest income, etc.).

The City does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other operating funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of the General Fund services provided (finance, personnel, purchasing, legal, technology management, etc.).

This government-wide focus is more on the sustainability of the City as an entity and the change in the City's net assets resulting from the current year's activities.

The financial transactions of the City are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

City of Pontiac
Notes to Financial Statements
June 30, 2003

The City uses the following fund types:

4. Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the City:

- General fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.
- Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.
- Debt service funds are used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt.
- Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/ proprietary funds).

5. Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net assets, financial position, and cash flows. The generally accepted accounting principles applicable are similar to businesses in the private sector. The following is a description of the proprietary funds of the City:

- Enterprise funds are required to be used to account for the operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs.

City of Pontiac
Notes to Financial Statements
June 30, 2003

- Internal service funds are used to account for the financing of goods or services provided by an activity to other departments, funds or component units of the City on a cost-reimbursement basis. The City's internal service fund is presented in the proprietary funds financial statements. Because the principle users of the internal services are the City's governmental activities, the financial statement of the internal service fund is consolidated into the governmental column when presented in the government-wide financial statements. To the extent possible, the cost of these services is reported in the appropriate functional activity (police, fire, public works, etc.).

6. Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support City programs. The reporting focus is on net assets and changes in net assets and are reported using accounting principles similar to proprietary funds.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Non-major funds by category are summarized into a single column. GASB 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The non-major funds are combined in a column in the fund financial statements.

The City's fiduciary funds are presented in the fiduciary fund statements by type (pension, private purpose and agency). Since by definition these assets are being held for the benefit of a third party (pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

7. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

8. Accrual

Both governmental and business-type activities in the government-wide financial statements and the proprietary and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

City of Pontiac
Notes to Financial Statements
June 30, 2003

9. Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual (i.e. both measurable and available); "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any is recognized when due.

10. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of monies are recorded to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund, Special Revenue Funds and Capital Projects Funds. Encumbrances outstanding at year-end are reported as reserves of fund balances since they do not constitute expenditures or liabilities.

11. Property Taxes

Property taxes, attached as an enforceable lien on property when levied each July 1, are based on the taxable valuation of property as of the preceding December 31 and are payable in two installments: July 31 (summer) and the following February 15 (winter). Summer taxes are considered delinquent August 1 and subsequently turned over to the County for collection with 1% penalty and interest included. Winter taxes are considered delinquent March 1 of the following year, at which time the delinquencies are turned over to the County for collection without penalty or interest. City property tax revenue is recognized when levied on July 1, when the proceeds of the levy are budgeted and available for the financing of operations.

The City bills and collects its own property taxes and also collects taxes for the County, community college and local school district. Collections and remittances of the County, community college and school district taxes are accounted for in the Agency Funds.

The 2002 assessed taxable valuation of the City's real and personal property totaled \$1,168.9 billion (a portion of which is abated, and a portion of which is captured by the TIFA and DDA), on which taxes levied consisted of 9.8329 mills for operating purposes, 1.9665 mills for Fire EMS services, 2.9498 for refuse collection and disposal, 1.4749 for capital improvement, and 2.4564 mills for debt service. This resulted in \$8,704 million for operating, \$1,802 million for Fire. EMS services, \$2,799 million for refuse collection and disposal, \$1,313 million for capital improvements, and \$0.792 million for debt service. These amounts are recognized in the respective General, Sanitation, Capital Improvements and Debt Service Funds financial statements, as tax revenue.

Financial Statement Accounts

12. Cash and Cash Equivalents

The City maintains a cash and short-term investment pool (defined as investments with an original maturity of less than 90 days) that is available for use by all funds except the Debt Service and Pension Trust Funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash and cash equivalents". At year-end, cash and cash equivalents consists primarily of cash and certificates of deposit. The carrying amount of the City's cash and cash equivalents, excluding pension and the Pontiac Hospital Finance Authority cash balances, was \$99,710,713 and the bank balance was \$98,904,489. Of the bank balance, \$616,785 was covered by federal depository insurance and \$68,049,316 was uninsured and uncollateralized with the remaining balance invested in Certificate of Deposits. Additionally, the City had \$60,725,914 of cash and cash equivalents related to the Pension Trust Funds which were held by investment brokers and other financial institutions.

13. Investments

Long-term investments (defined as investments with an original maturity greater than 1 year) are held by the Trust and Agency Funds and are separately classified on the combined balance sheet. These investments are reported at market value, in accordance with GASB Statement No. 31 *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. The City's investment policy is consistent with state statutes. Statutes of the State of Michigan authorize the City to invest in obligations of the U. S. Treasury, agencies and instrumentalities; commercial paper, rated within the two highest classifications established by not less than two standard rating services; bankers' acceptances; repurchase agreements, and the State Treasurer's investment pool. The City is also authorized to enter into reverse repurchase agreements. The Pension Trust Fund is authorized to invest in corporate stocks and corporate bonds rated in the top four major grades, as determined by at least two national rating services. Pension Trust Fund investments are also subject to a number of restrictions as to type, quality and concentration of investments made, including limiting common stock to no more than 60 percent of the portfolio.

City of Pontiac
Notes to Financial Statements
June 30, 2003

The City's investments, including investments of the Pension Trust Funds, are categorized to give an indication of the level of risk assumed by the City at year-end. Category 1 includes investments that are insured or registered or for which the City or its agents in the City's name hold the securities. Category 2 includes uninsured and unregistered investments for which the broker's holds the securities; dealers or financial institutions trust department or agent in the City's name. Category 3 includes uncollateralized, uninsured and unregistered investments for which the securities are held by a broker, dealer or financial institution, or by its trust department or agent, but not in the City's name. A summary of the Pension Trust Fund investments at December 31, 2002 follows:

	Category 1 at Market Value
U. S. government securities	\$ 90,023,761
Money market & mutual funds	24,120,410
Real estate	41,207,381
Equities	287,140,073
Preferred securities	577,575
Corporate bonds	108,491,563
U.S. government mortgage pool	24,165,700
Interest in CAP Commercial Mortgage, LLC	6,115,336
Total	<u>\$ 581,841,799</u>

At December 31, 2002, there were no investments in any one organization in excess of 5% of net assets available for benefits.

14. Inventories

Supplies are valued at average cost. Supplies in the General Fund and Special Revenue Funds consist of expendable items held for consumption. The cost is recorded as expenditure at the time individual supply items are consumed. Reported supplies are equally offset by a fund balance reserve, which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

City of Pontiac
Notes to Financial Statements
June 30, 2003

15. Capital Assets

Capital assets are valued at original cost. Donated properties are recorded at estimated fair market value at the date of donation.

Proprietary fund fixed assets are valued at original cost, including interest costs related to construction. Depreciation has been provided over the following estimated useful lives using the straight-line method:

Buildings	30-50 years
Building improvements	10-20 years
Equipment	5-20 years
Furniture and fixtures	5-10 years
Vehicles	5-10 years

GASB 34 requires the City to report and depreciate infrastructure assets effective in 2007. Infrastructure assets include roads, bridges, traffic signals, etc. The assets are the largest asset class of the City. The City plans to report these assets retroactively in the fiscal year ending June 30, 2005.

City of Pontiac

City of Pontiac
Notes to Financial Statements
June 30, 2003

Depreciation expense was charged to programs of the primary government as follows:

Governmental activities	
General government	\$ 343,394
Public safety	715,632
Community and economic development	616,933
Total governmental activities	<u>\$ 1,675,959</u>
Business-type activities	
Water	\$ 597,072
Sewage	1,894,749
Parking	670,623
Transportation center	79,722
Golf course	317,657
Cemetery	36,697
Total business-type activities	<u>\$ 3,596,520</u>

16. Revenues

Substantially all governmental fund revenues are accrued. Property taxes are billed and collected within the same period in which the taxes are levied. Subsidies and grants to proprietary funds, which finance either capital or current operations, are reported as non-operating revenue as required by "GASB 33". In applying GASB 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

In the City's enterprise funds, all revenues and expenses that are peripheral to the principal business activity are reported as non-operating.

17. Expenditures

Expenditures are recognized when the related fund liability is incurred. Inventory costs are reported in the period when inventory items are used, rather than in the period purchased.

City of Pontiac
Notes to Financial Statements
June 30, 2003

18. Compensated Absences

Employees accumulated unused vacation, sick pay and other employee benefits. All such benefits are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year end.

19. Interfund Activity

At times, the City engages in transactions between various city funds. Generally, these transactions are reflected as operating transfers. Administrative services provided by the City's General Fund of \$3,824,718 have been reflected as operating expenditures or expenses, as appropriate, in the receiving fund or component unit and as charges for services in the General Fund. (See Note 22).

City of Pontiac
Notes to Financial Statements
June 30, 2003

20. Long-Term Liabilities

The City issues bonds to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. Revenue bonds involve a pledge of specific income derived from the acquired or constructed assets to pay the debt service. Long-term obligation activity can be summarized as follows:

	Interest Rate Ranges	Principal Maturity Ranges	Beginning Balance	Additions (Reductions)	Ending Balance	Due Within One Year
Governmental activities						
General obligation bonds						
1993 Michigan Department of Transportation bonds						
Amount of issue - \$3,100,000	5.25%-5.35%	\$245,000-				
Maturing though 2008		\$315,000	\$ 1,620,000	\$ (230,000)	\$ 1,390,000	\$ 245,000

The Transportation Center debt of \$3,000,000, an Enterprise Fund Type, has no fixed maturity date. The debt is to be repaid when the Center reflects an operating profit, as defined in the agreement between the City and State. Compensated absences and separation accruals of \$8,157,069 are payable upon retirement or termination of eligible employees; therefore, specific payment dates are not determinable. Also, the landfill closure and post closure cost accrual \$1,858,666 and the pending litigation accrual of \$1,000,000 have no fixed maturity dates and therefore they have been excluded from the above summary.

Payments on the bonds and notes payable that pertain to the city's governmental activities are made by the debt service funds. Lease payments are made directly from the fund incurring the expenditure. The compensated absences liability attributable to the governmental activities will be liquidated primarily by the General Fund. The Landfill closure and post-closure costs represents the cumulative amount of closure and post-closure care costs reported to date based on the use of 88 percent of the estimated capacity of the landfill. The claims and judgments liability will be generally liquidated through the city's Insurance Internal Service Fund. That fund will finance the payment of those claims by charging the other funds based on management's assessment of the relative insurance risk that should be assumed by individual funds.

All significant leases have been capitalized in accordance with statements of Financial Accounting Standards Board No. 13 "Accounting for Leases". The City has no significant operating leases.

City of Pontiac
Notes to Financial Statements
June 30, 2003

There are a number of limitations and restrictions contained in the various bond indentures. The City believes it has complied with all significant limitations and restrictions.

The City's unused bonding capacity is \$85,764,304 at June 30, 2003 as determined in accordance with State statutes.

No Commitment Debt - The Economic Development Corporation (a component unit) of the City of Pontiac issues tax-exempt revenue bonds and notes under authority of the Michigan Economic Development Corporation Act. Proceeds of the debt issues are used to purchase or construct facilities which are leased to industrial and commercial enterprises under contracts which provide for sufficient revenue to pay principal and interest obligations of the bond issues and which further provide that the property be transferred to the lessee at the time that the indebtedness is paid in full. The debt instruments specifically indicate that the lender looks to the lessee for payment of the debt and that the Corporation and its officers are held harmless except to the extent of rentals they collect. The lease property and the bonds and notes are not considered to be assets or general obligations of the Corporation and, therefore, are not recognized in the financial statements of the City of Pontiac.

21. Receivable and Payable Balances

The property tax receivable accounts represent the past five years of uncollected, delinquent personal property tax levies. The personal property taxes have been reduced to their estimated net realizable value through the allowance for doubtful accounts.

In 1988, the City received a U. S. Housing Development Grant in the amount of \$1,796,000 (a portion of the \$6.1 million in loans above), which was loaned to a developer to assist in the construction of rental property within the City. Under the provisions of the loan agreement, the loan bears interest at an annual rate of 5% through the year 2019 and 7% during the years 2020 through 2027. The unpaid principal and interest amounts will be repaid during the years 2020 through 2027. The loan is collateralized by the rental facilities. An additional \$3 million represent loans to residents for the repair of their housing within the city limits. As the funds are not currently available to the City, the City has recorded a receivable from the developer and residents and deferred revenue until such time as the amounts are received.

23. Retirement Commitments

Defined Benefit Pension Plan Description - The City sponsors and administers two contributory single employer defined benefit retirement plans, the General City Employees' Retirement System ("GERS") and the Police and Fire Retirement System ("PFRS"), collectively referred to as the Systems.

All full-time employees are eligible to participate in the Systems. Benefits vest after 10 years of service in the GERS and after 10 years under the PFRS. At December 31, 2002 (the latest actuarial evaluation report), the membership of the Systems consisted of:

	GERS	PFRS	Total
Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	<u>1,307</u>	<u>347</u>	<u>1,654</u>
Current employees			
Vested	239	138	377
Nonvested	<u>234</u>	<u>124</u>	<u>358</u>
Total	<u>473</u>	<u>262</u>	<u>735</u>

City of Pontiac
Notes to Financial Statements
June 30, 2003

City employees participating in the GERS who retire at or after age 60 with 10 years of credited service or age 55 with 25 years of service are entitled to annual retirement benefits payable monthly for life, in an amount that approximated 2 % of final average compensation multiplied by years of credited services (as defined by the plans). City employees participating in the PFRS who retire at or after age 50 with 10 years of credited service or with 25 years of service are entitled to receive an annuity equal to their final average salary multiplied by 3 % for the first 20 years of credited service, 2 % for the next 5 years and 1 % for the subsequent 5 years, subject to a maximum of 75 % of final average salary. Both Systems provide for death and disability benefits and annual costs of living increases to pension benefit payments in accordance with various collective bargaining agreements. These benefit provisions and all other requirements are established by state statute and city ordinance.

City employees included in the GERS are not required to contribute to the System. Members of the Police and Fire Departments are required to contribute to the PFRS 2.5% of their annual salaries. The City is required to contribute an amount necessary to fund the System, using an actuarial basis specified by city ordinance.

Basis of Accounting - The City of Pontiac General Employees' Retirement System and the Police and Fire Retirement System's financial statements are prepared using the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the two plans.

Separately issued Financial Statements - The City of Pontiac's Retirement Boards issue stand-alone financial statements for both the GERS and the PFRS retirement systems. A copy of the stand-alone financial statements can be obtained from the Board Retirement Administrator at 47450 Woodward, City of Pontiac, Michigan 48342.

Trend Information - The additional information (see supplemental information section of the City's comprehensive annual financial report) is designed to provide information about the System's progress made in accumulating sufficient assets to pay pension benefits when due. This information is presented in conformity with Government Accounting Standards Board Statement No. 25, "Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans."

City of Pontiac
Notes to Financial Statements
June 30, 2003

Reserves - State law requires employee contributions to be segregated. In addition, amounts must be set aside as determined by the actuary to fund benefits to retirees currently approved to receive benefits. As of December 31, 2002 the System's reserves have been fully funded as follows:

	GERS	PFRS
Reserved for employee contribution	\$ 6,133,062	\$ 2,640,938
Reserved for retired employees	122,940,711	133,015,801

Deferred Compensation Plan - The City offers to all its employees a Deferred Compensation Plan created in accordance with Internal Revenue Code Section 457. The Plan permits the employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

Retirees' Health Care Benefits - The City provides certain health care benefits for retired employees in accordance with various bargaining contracts. Substantially all of the City's employees may become eligible for these benefits if they meet normal vesting requirements while still working for the City. The City funds these retirement benefits on a "pay-as-they-go" basis through annual budget appropriations. Expenditures for retirees' health care benefits were approximately \$ 4,160,000 and \$4,332,000 in fiscal 2003 and 2002, respectively.

VEBA - The City of Pontiac has established an irrevocable prefunded group health and insurance trust fund (the "Trust") for health, optical, dental insurance and life insurance benefits for retirees who are members of the Police and Fire Retirement System of the City of Pontiac, and who retired on or after August 22, 1996. The Trust was created as an Internal Revenue Code 501(c) 9 Trust (VEBA).

The Trust is funded by employer and participant contributions. An actuarial valuation was performed and the required employer contribution rate has been changed from 5% to 17.35 % of Police and Fire wages effective July 1, 2000. Participant contributions are determined each year by collective bargaining contracts or, if applicable, by the Trustees. No participant contributions were required for the year ended December 31, 2002.

Basis of Accounting - The City of Pontiac Police and Fire Retiree Prefunded Group Health and Insurance Trust statements are prepared using the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Insurance costs are recognized when due and payable in accordance with the terms of the Trust.

City of Pontiac
Notes to Financial Statements
June 30, 2003

Investments - Investments are reported at fair value. Money market funds and mutual fund investments are valued at net asset value. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis. In accordance with the policy of stating investments at fair value, net unrealized appreciation or depreciation for the year is reflected in the statement of changes in trust net assets. At December 31, 2002, investments consisted solely of money market and mutual funds. Investments are normally categorized to give an indication of the level of risk assumed by the Trust; however, cash, money market and mutual funds are not categorized because they are not evidenced by securities that exist in physical or book entry form.

24. Litigation, Commitments and Contingencies

Litigation - There are various claims and legal actions pending against the City and its various operating units, many of which are either partially or fully covered by insurance. The City is defending against these actions. In the opinion of City management, the ultimate amount of loss, if any, resulting from these claims and legal actions will not be material to the financial position of the City.

In September 1991, a settlement was reached between the City of Pontiac and General Motors Corporation pursuant to claims relating to the assessed valuation of General Motors property located within the City for fiscal years 1986 through 1992. Under the terms of the settlement, the City is potentially obligated to refund to General Motors the aggregate sum of \$23,770,500 relating to such fiscal years. No amounts have been accrued as of June 30, 2003 for property tax refunds relating to this settlement, since such amounts, if any, are contingent on the existence of increases on the assessed values of General Motors property subsequent to December 31, 1991.

This potential refund is to be applied as a credit against future property tax obligations of General Motors related to increases in the General Motors tax base over its tax base at December 31, 1991, for a 15-year period beginning with fiscal 1994 and ending with fiscal 2008. The expired credit for each year will be the greater of \$1,584,700 or the actual credit used, with a portion of the total credit to expire each year whether or not used. The actual credit utilized by General Motors for the fiscal year ended June 30, 2003 was \$986,015.

As a result of the settlement, the current assessed value of the General Motors property has been reduced by \$111.9 million.

Cost Settlements - The City receives grants from the State of Michigan and various federal agencies to fund specific projects. Final determination of grant amounts is subject to audit by the responsible agencies. The City does not believe that disallowed costs will exceed amounts provided for disallowances by an amount material to the financial statements.

City of Pontiac
Notes to Financial Statements
June 30, 2003

25. Self Insurance

Workers' Compensation - The City has been partially self-insured for compensation claims since September 1976. The details of the self-insurance plan change periodically and, under the 1992 plan, the City is obligated to pay the first \$500,000 of an individual claim or award. An insurance carrier will reimburse the City for the amount by which specific payments exceed \$500,000 and aggregate payments exceed \$2,121,000. The City has accrued in the Insurance Internal Service Fund \$4,200,000 for unresolved workers' compensation claims as of June 30, 2003, which includes an estimate for claims, which were incurred, but not reported.

General Liability - The City is a participant in the Michigan Municipal Risk Management Authority, a risk program for governmental entities in Michigan. The City is self-insured for the first \$150,000 of each occurrence. The maximum amount of cash payments under the self-insured retention in any one fiscal year is \$1,000,000. Coverage over the self-insured retention is \$10,000,000 per occurrence. The City has accrued in the Insurance Internal Service Fund \$2,500,000 for unresolved general liability claims as of June 30, 2003, which includes an estimate for claims, which were incurred but not reported.

Medical and Dental - The City has been partially self-insured for medical and dental expenses since 1985. It is obligated to pay the first \$75,000 of medical claims (includes hospital, surgical and master medical) for each contract and the insurance company reimburses the remainder. Under the plan, the insurance company also will reimburse the City for aggregate payments in excess of 120% of expected claims. The City has accrued in the Insurance Internal Service Fund \$1,087,575 for unresolved medical and dental claims as of June 30, 2003, which includes an estimate for claims, which were incurred but not reported.

26. Excess of Actual Expenditures over Budget

The following funds and budgeted departments had an excess of actual expenditures over budget for the year ended June 30, 2003:

	Interfund Expenditures
Government-Type Funds	
General Fund	
Public Safety-Police	\$ (721,790)
Public Safety-Fire	(1,630,614)
Economic Opportunity-Human Resources	(106,489)
Purchasing & Contract Compliance	(3,817)
Senior Services	(1,468)
Public Works-Engineering	(169,502)
Public Works-Electrical	(5,421)
Public Works-Sign Shop	(12,472)
Public Works-Operations	(85,967)
Special Revenue Funds	
Local Street Fund-Other Expenditures	(117)
District Court Fund-Other Expenditures	(149,469)
Community Development Block Grant Fund-Capital Outlay	(796,575)
Capital Improvements Funds-Other Expenditures	(54,328)
Capital Projects Fund-Capital Outlay	(23,567,642)
Local Street Fund-Transfers Out	(208)

City of Pontiac
Notes to Financial Statements

27. Deficits in Fund Equity

The following individual funds have deficits at June 30, 2003:

	Interfund Expenditures
Government-Type Activities	
General Fund	\$ (4,696,543)
Local Streets	(38,820)
District Court	(452,172)
Business-Type Activities	
Transportation Fund	(1,483,596)

A deficit elimination plan for the General Fund has been prepared and is currently under review with executive branch. It includes a combination of budgetary cutbacks and use of the Budget Stabilization Fund. The deficit in the Local Streets Fund will be eliminated with a transfer of funds from Major Streets Fund. Operation of the District Court is under the supervision of the Chief Judge. The City and the Chief Judge of the 50th District Court Fund will formulate a plan of action for elimination of the deficit in the Court Fund. The deficit within the Transportation Center Fund is due to accumulated depreciation of over \$1.8. The City is in negotiations with the State regarding disposition of the Transportation Center, at which point the accumulated deficit is expected to be eliminated through debt forgiveness.

28. Transfer of North Oakland Medical Center Operations

In 1993, the Pontiac Hospital Finance Authority ("PHFA"), a discretely presented component unit, was incorporated by City Council. Effective December 30, 1993, the City transferred the operations of the Pontiac General Hospital and Medical Center ("PGHMC"), a Michigan nonprofit corporation to PHFA. The transfer of the hospital's operations from the City occurred through the completion of two principal transactions: (1) the transfer of the hospital buildings, equipment and substantially all other tangible and intangible assets of the hospital from North Oakland Medical Center to PHFA, to be leased as a going concern by PHFA to PGHMC, and (2) a ground lease of the hospital land by the City to PGHMC. In consideration of the transfer of the hospital's operations, PHFA paid the City \$7,600,000 plus approximately \$803,000 to reimburse the City for their 1993 payments on the 1979 General Obligation Bonds and assumed an obligation to pay \$1,000,000 annually to the City for the next 30 years. PHFA also refunded the City's 1979 G. O. Hospital Bonds of \$5,450,000 and the 1979 Hospital Revenue Bonds of \$32,465,000, which were assumed by PHFA as part of the consideration for the transfer.

City of Pontiac
Notes to Financial Statements
June 30, 2003

PHFA raised proceeds for the transfer of net assets by issuing \$51,810,000 in Pontiac Hospital Finance Authority Hospital Revenue Bonds, Series 1993 (the "Series 1993 Bonds"). The 1993 Series Bonds and interest and premiums payable thereon are not obligations of the City and are only special limited obligations of PHFA. The base rent under the lease agreement between PHFA and PGHMC is for the principal, interest and premiums or cost related to the Series 1993 Bonds, payable from PGHMC directly to the bond trustee. Additional rent of \$1,000,000 annually is required to be paid by PGHMC to PHFA. The lease of the hospital facilities and equipment is being accounted for as a direct financing lease by PHFA. The initial term of the going concern lease is 30 years. It contains an option provision for completing the privatization (purchase) of the facility during the lease term upon approval of PHFA and payment of funds according to a specified formula. The lease agreement also contains an automatic renewal clause for an additional 30-year term, if the privatization is not completed by the end of the 29th year of the initial lease term.

The components of the PHFA's net investment in the direct financing leases as of June 30, 2003 are as follows:

Minimum lease payments receivable	\$ 20,000,000
Estimated residual value of lease property	<u>49,000,000</u>
	69,000,000
Less: Unearned income	<u>(35,304,448)</u>
Net investment in direct finance lease	<u>\$ 33,695,552</u>

Under the ground lease, PGHMC will pay the City a base rent of \$50,000 annually during the 30-year term. In addition, PGHMC will pay a percentage rent of 10 percent of the amount, if any, by which annual net profits of the hospital attributable to periods occurring during the term of the ground lease, exceeds \$5,000,000. The terms of the ground lease is coterminous with the hospital facilities lease agreement, and will also be automatically renewed in the event the Lease Agreement is automatically renewed for 30 years. Annual rent during the renewal term will be \$50,000, adjusted for inflation. Upon termination of the ground lease, PGHMC, if it continues to operate the hospital, will be required to renegotiate the purchase or lease of PGHMC land with the City. Payment of rent under the ground lease is payable on a par with payments due under the lease agreement. The ground lease also includes covenants of PGHMC regarding affirmative action, Pontiac residency preference for employees, indigent care, and community service and community economic development. The City is accounting for this lease as an operating lease.

City of Pontiac
Notes to Financial Statements
June 30, 2003

29. Landfill Closure and Post-Closure Care

In August 1993, the Government Accounting Standards Board ("GASB") issued Statement No. 18, "Accounting for Municipal Solid Waste Landfill Closure and Post closure Care Costs." The City adopted GASB No. 18 in fiscal year 1994.

State and federal laws and regulations require the City to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post-closure care costs will be paid only near or after the date the landfill stops accepting waste, the City will report a portion of these post-closure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date, effective after adopting GASB No. 18. The \$2,743,715 the City has accrued in the Sanitation Fund (a Special Revenue Fund) at June 30, 2003, is the cumulative effect of adopting GASB No. 18 and includes \$1,000,000 of cash restricted for closure and post-closure care costs, in accordance with the State of Michigan's current financial assurance regulations, and \$1,743,715 reserved by City management.

Landfill capacity was an estimated 3,262,864 cubic yards in December 1984 of which 363,740 cubic yards are remaining at year-end 2003. Landfill consumption is approximately 54,273 cubic yards per year. The amount accrued plus an additional \$1,858,666 reported in the general long-term debt account group represent the cumulative amount of closure and post-closure care costs reported to date based on the use of 88 percent of the estimated capacity of the landfill. These amounts are based on what it would cost to perform all closure and post-closure care in 2003.

The City expects to close the landfill in 11.7 years, based on the current consumption rate. Actual costs may be higher or lower due to inflation, changes in technology, or changes in laws and regulations. The City will use a portion of the fees charged to the users of the landfill to fund the remaining estimated closure and post-closure care costs.

30. Pontiac Silverdome (Component Unit)

Subsequent to the retirement of the debt, the Pontiac Silverdome management solicited bids for redevelopment proposals on the Silverdome property. The submitted proposals are under review by the Stadium Ad-Hoc Study Committee, comprised of representatives from the City's executive and legislative branches, as well as, members of the Pontiac Stadium Building Authority. A five screen drive-in theater erected in the parking lot of the Silverdome will begin operating in the fall of 2003. The Silverdome continues to host a variety of events such as concerts, sporting events, trade shows and conventions on a regular basis.
